

### Our Product Presentation

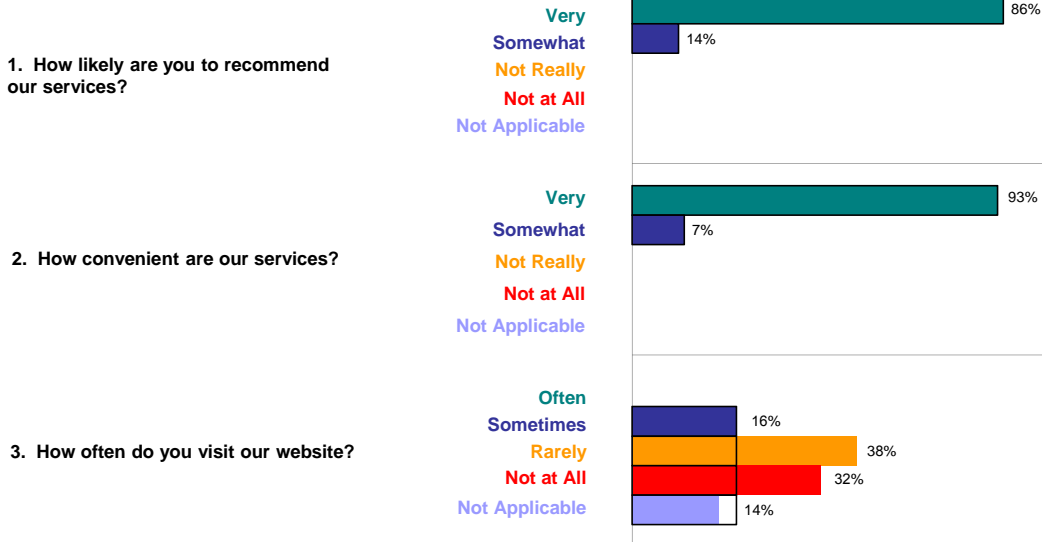

### Product Quality

## Our Communication With You

## Services

## Client Comments

### **Comments on the quality of our product:**

- Some of the reviews returned with more of a reviewer's opinion/judgment of care versus a research/evidence-based review of the care. One of our goals for this process is education to our providers.

### **Comments on our communication:**

- Be sure your recommendation is supported by medical literature articles/references. Your recommendations should be based on experience and supported by the literature.
